

Harwell Oxford Campus

Oxford

Role

Quod is instructed by Harwell Campus to provide strategic planning advice to ensure the Campus realises its vision of being a science and technology campus with outstanding people and world-leading facilities.

Harwell Campus is recognized as a world-class centre for science, technology and innovation. In 2011, part of the Campus was given Enterprise Zone status in recognition of the site's strategic role in contributing to the UK's science and technology sector.

Quod is providing strategic planning advice to ensure the opportunities presented by the Enterprise Zone at Harwell are fully realised. Quod is working closely with the Vale of White Horse District Council to establish a joined up vision for the site, and guide a comprehensive masterplanning process which will identify and address the needs of the Campus. This process considers both the commercial potential facilitated by the Enterprise Zone, and the needs and opportunities which arise as a result of the planned growth, to provide a clear and robust strategy for the future development of Harwell Campus.

Description

Quod is instructed by Development Securities and Harwell Oxford joint venture to provide strategic planning advice in relation to the development of Harwell Oxford Campus.

Client

Harwell Oxford Campus and Development Securities
